

## **Monash University Cricket Club Selection Policy**

Last Updated: 2nd April 2020

### **Guidelines**

Selection criteria includes, but is not limited to, match performance, training attendance, and payment of club membership fees.

The club committee is to appoint a selection committee, that may contain, coaches, captains, committee members, senior players, or former players, whose job it is to select teams every week of competition.

Players have 6 games to pay their membership, before they are automatically suspended.

Finals teams will be selected by the captain, from the list of qualified players.

### **Priority at Selection**

Current Monash University students are to be given priority at selection, over any public members. The following is the priority of players in terms of selection.

1. Paid Monash University Student
2. Paid Public Player
3. Unpaid Monash University Student
4. Unpaid Public Player

Players who have trained more than others in the current season will be selected first, within the same priority level. The club will record training attendance every session.

### **Player Roles**

Every player must have a role to play within the team in every match. These roles can and will change from match to match. Captains are to ensure that all players either get a bat or a bowl. If at any time a player is not happy with a captain, then this should be raised to the club committee.

### **Notification of Availability**

Each week of season, players will be asked to provide their availability (Saturday, Sunday, Both or None) by Monday 5pm to the selection committee. The selection committee will then draft teams and make them available to captains for review at 5pm Wednesday. Players will then be notified of teams at 9pm on Thursday night, after training. Players will also be notified by the captain of their selected team. If the player can no longer play, they must notify the captain of the team, before 9am Saturday.

Players can, and will be able to play for multiple teams on a weekend, but only if all available players have already been given a game.

### **Suspensions**

Players can be suspended at any time by the club committee or selection committee for failure to follow club rules or policies. A suspended player will be notified by the club committee.
